Identity safe/brave spaces have saved my life. The hope, healing and restoration these groups provide can only emerge in such a sacred space. This is why iChange supports leaders to strategically create their own groups in alignment with the purpose and vision of their organization. Effective groups increase a sense of belonging and improve engagement with students, teachers, parents, and school leaders.

Dr. Danielle Stewart, President
iChange Collaborative

This virtual training is essential for those at any level of experience in order to:

- Establish a common language
- Provide structure
- Define expectations
- Support effective vision and goal setting
- Supply leaders with tools and resources to strengthen psychological safety
